

Migration and Local Development Project (MiDL)

Terms of Reference

Job title:	National Consultant on employment data analysis
Duty Station:	Chisinau Moldova
Section/Unit:	Migration and Local Development Project (MiDL)
Type of Contract:	Individual Contract
Starting Date:	31 October 2017
Duration of Assignment:	40 working days [within the period of October 2017– May 2018]

I. BACKGROUND

The Government of Moldova explicitly acknowledges its commitment to generate employment and link migration and development at the local level. Institutions at all government levels are becoming increasingly aware that migration is one of the factors affecting development; this is especially true for emigrants and their potential to support the home communities through local essential service improvement (water, sanitation, education, health and social services), skill and knowledge transfer and income generating opportunities.

Given the stringent need to further advance with the implementation of the Decentralization Strategy and embedding migration aspects into development processes, the State Chancellery together with United Nations Development Programme have designed a new Programme phase of the Integrated Migration and Local Development Programme. The project is designed to support Central Public Authorities (CPAs) and LPAs to develop and implement strategic policies, methodologies and procedures related to temporary, permanent and circular migration and link them to local development processes, which will enable further design and implementation of joint service improvement and income-generating initiatives, ensuring equal access for women, children, young people the elderly, the disabled, and other population groups in selected localities. Moreover, the project is developed as a replicable approach with potentials for scaling up, with intensive capacity building and strengthening of national and local public authorities to better plan, manage, budget, and implement public service management with participation of community members, including migrants.

Thus, as seen above, integrating migration into local development requires a systematic, tangible and programmatic approach. The current project is proposed on the basis of the results achieved during the implementation of 3 phases of JILDP (2007-2015), which has put a series of methodological approaches and strategic frameworks in place. It supports integrated and systematic local development planning and management, by tackling both central and local levels.

The Overall Objective of the Programme is: Communities affected by migration benefit from improved essential local services, namely water and sanitation, health, social and education services, and have access to income-generating opportunities, including improved employment reintegration support for returnees.

Considering the specific local development context, the current situation and needs, the project sets up two primary outcomes:

Outcome 1: The Ministry of Labour and Social Protection and Family (hereinafter MLSPF)¹ and the National Employment Agency have mandates, capacities and resources to provide qualitative employment reintegration services to all returnees.

Outcome 2: Local public authorities have the capacities and resources to engage with community members, including migrants, and to promote knowledge transfer from abroad with a view to improving local essential services and offering opportunities for income-generating activities.

Working toward achieving the first outcome mentioned above, MIDL has provided support to the MHLSP (previously MLSPF), in developing and promoting the National Employment Strategy and its Matrix of Actions for 2017-2021, in cooperation with ILO (as part of the first Policy Component of MiDL). This strategic document was officially endorsed by the Government of Moldova and entered into force in January 2017, and contributes directly to the implementation of the National Action Plan for the Implementation of the RM-EU Association Agreement on the creation and implementation of strategic employment policies, the Government's Activity Program as well as advancing the Agenda 2030 in Moldova. The National Employment Strategy aims at developing a "dynamic, flexible and inclusive" labour market, by interpolating economic policies on productive and inclusive jobs creation and education policies on adequate skills development, a modernized NEA and active labour market measures, while integrating gender aspects, accounting for, and capitalizing on the benefits of migration. The National Employment Strategy envisages a comprehensive analysis of data gaps and improving data collection for employment policies design, but also monitoring and evaluation of the National Employment Strategy implementation. At the same time, the research performed by UNDP Moldova on the nationalization of indicators for the Sustainable Development Goals revealed that the data is lacking for a series of SDG indicators as well². This specific assignment is meant to support the Ministry in addressing these issues and improve the capacity of the Ministry and other directly implicated stakeholders in data collection and analysis for employment policy design, monitoring and evaluation.

II. SCOPE OF WORK

UNDP Moldova is seeking a National Consultant to assist an International Consultant and the MHLSP to perform a thorough analysis of statistical data gaps necessary for employment policy formulation, monitoring and evaluation, and provide recommendations and support for improvement.

III. TASKS AND ESTIMATED WORKLOAD

The assignment will require the completion of the following tasks:

Tasks and expected deliverables	Estimated workload (days)
Task 1 Provide support to the MHLSP and the International Consultant to perform the analysis of the indicators used for employment policy design, monitoring and evaluation - mapping the main employment indicators used by the MHLSP for analysing the Moldovan labour market; provide recommendation for additional indicators/sub-indicators that ought to be analysed in order to improve the quality of employment	14

¹ Following the 2017 Governmental Reform as of 26.07.2017, the Ministry of Health, Labour and Social Protection is the legal successor of the Ministry of Labour, Social Protection and Family.

² According to the analysis, 17 indicators were identified for monitoring the targets of SDG 8. Aut of the total 17 indicators, 7 indicators are available, 3 indicators are partially available and 7 are missing (the calculation methodology needs to be developed and/or the primary source of data collection needs to be identified)

analysis.	
Expected deliverables for task 1: Progress Report No. 1 and 1.1 Report on mapping employment indicators (5-10 pages) 1.2 Paper on examples of employment indicators based on the international practice	
1.3 A half-day workshop delivered to the main stakeholders, including agenda, presentations, handouts, evaluation forms, etc.	
Task 2. Assist the International Consultant in identifying the statistical data gaps analysis, including the identification of methodological shortcomings or lack of	
methodology for the identified data gaps	5
Expected deliverables for task 2: Progress report No. 2 and 2.1 Report on statistical data gap analysis (circa 10 pages)	
Task 3. Assist the International Consultant in formulating recommendations and providing support for improving data collection	
Expected deliverables for task 3: Progress Report No.3 and 3.1 Adjusted/updated the data collection methodologies to improve data collection on employment	10
Task 4. Asist the International Consultant to deliver capacity building activities for the main stakeholders.	
 Participation in and delivery of presentation to the technical working group on the implementation of the National Employment Strategy for 2017-2021 Deliver a two days training on data collection and improving the quality of employment policy analysis, monitoring and evaluation 	5
Expected deliverables for task 4: Progress report No.4 and 4.1 Presentation for the technical working group	
4.2 A two-days training delivered to the main stakeholders, including agenda, presentations, handouts, evaluation forms, training report, etc.	
Task 5. Asist the International Consultant in carrying out the activities under this assignment - setting up meetings, interviews, organizing the trainings. Ensure English-Romanian translation of all deliverables developed in cooperation with the International Consultant	
6. Final Activity Report	1
Total up to	40

IV. DELIVERABLES AND TIMEFRAME:

The assignment should be carried out within a period of 7 months, not exceeding 40 working days.

Deliverables	
Expected deliverables for task 1: Progress Report No. 1 and 1.1 Report on employment indicators (5-10 pages) 1.2 Paper on relevant examples of employment indicators based on the international practice (circa 5pages) 1.3 A half-day workshop delivered to the main stakeholders, including agenda, presentations, handouts, evaluation forms, etc.	
Expected deliverables for task 2: Progress report No. 2 and 2.1 Report on statistical data gap analysis (circa 10 pages)	8 December 2017
Expected deliverables for task 3: Progress Report No.3 and 3.1 Updated/Adjusted data collection methodologies to improve data collection	

V. MANAGEMENT ARRANGEMENTS:

To fulfil the bellow-mentioned tasks the National Consultant will work in a team with an International Consultant (hired under a different ToR by UNDP Moldova). The International Consultant on employment data analysis will lead the assignment and will provide guidance to the MLSPF in this process. It is envisaged that the National Consultant will work online /home based for completion of tasks. Availability for periodical online meetings is required. The National Consultant will work under the supervision of the Policy Component Manager of the Integrated Migration Local Development project, the MLSFP and other officers/consultants of the MiDL team, as appropriate
