ITB17/01555 - Construction of 19 biomass based heating systems in conjunction with solar collectors for domestic hot water (4 Lots)

Supplemental clarifications to email inquiries as of 09/08/2017:

In relation to the clarification questions and answers published on 02 August 2017, bidders should also consider the next supplemental clarifications:

1. For Site 1.1 (Busila) the requirement envisages installation of 2 boilers of 150 kW and 100 kW each fueled with agro-briquettes. Updated BOQs including the relevant corrections is published as of 09/08/2017 and bidders shall use the updated version in the preparation of their bids.
2. For Site 2.2 (Falestii Noi) the requirement envisages installation of 2 boilers of 150 kW fueled with agro-briquettes. Updated BOQs including the relevant corrections is published as of 09/08/2017 and bidders shall use the updated version in the preparation of their bids.
3. For Sites 2.4 (Ciuciulea), 4.2 (Cneazevca), 4.3 (Enichioi) and 4.4 (Obileni) - in all these cases the requirement envisages installation of boilers fueled with agro-briquettes. The existing BOQs prevail over the Design Documents in this case.

Moldova Energy and Biomass Project

This project is funded by the European Union and implemented by the United Nations Development Programme.
