Technical drawing of a dining table. The overall length is 8350 mm. The table has a rectangular top with a thickness of 36 mm. The legs are 750 mm high. The drawing shows the table from a side perspective, with dashed lines indicating the internal structure and the placement of the legs. The table is shown with a light gray top and a darker gray base/leg structure.

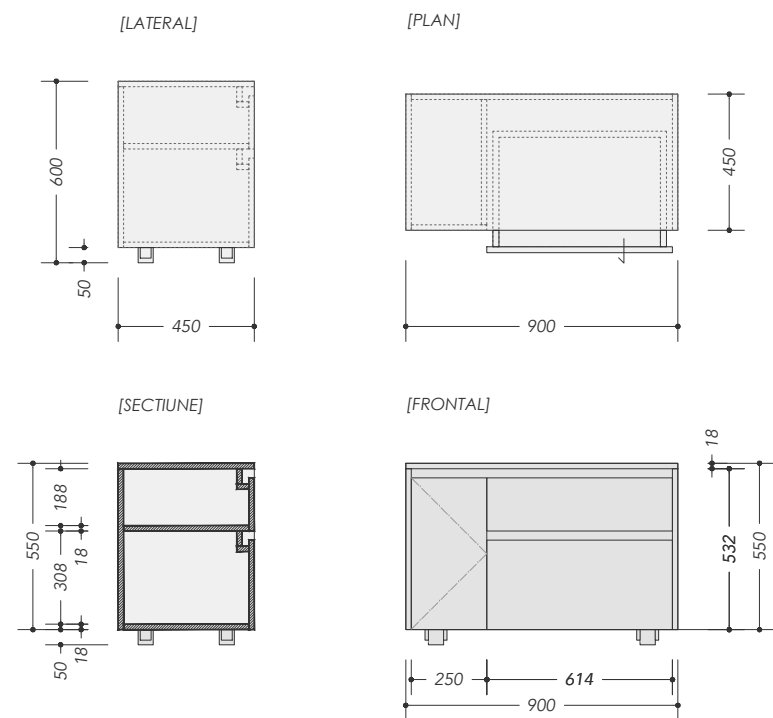

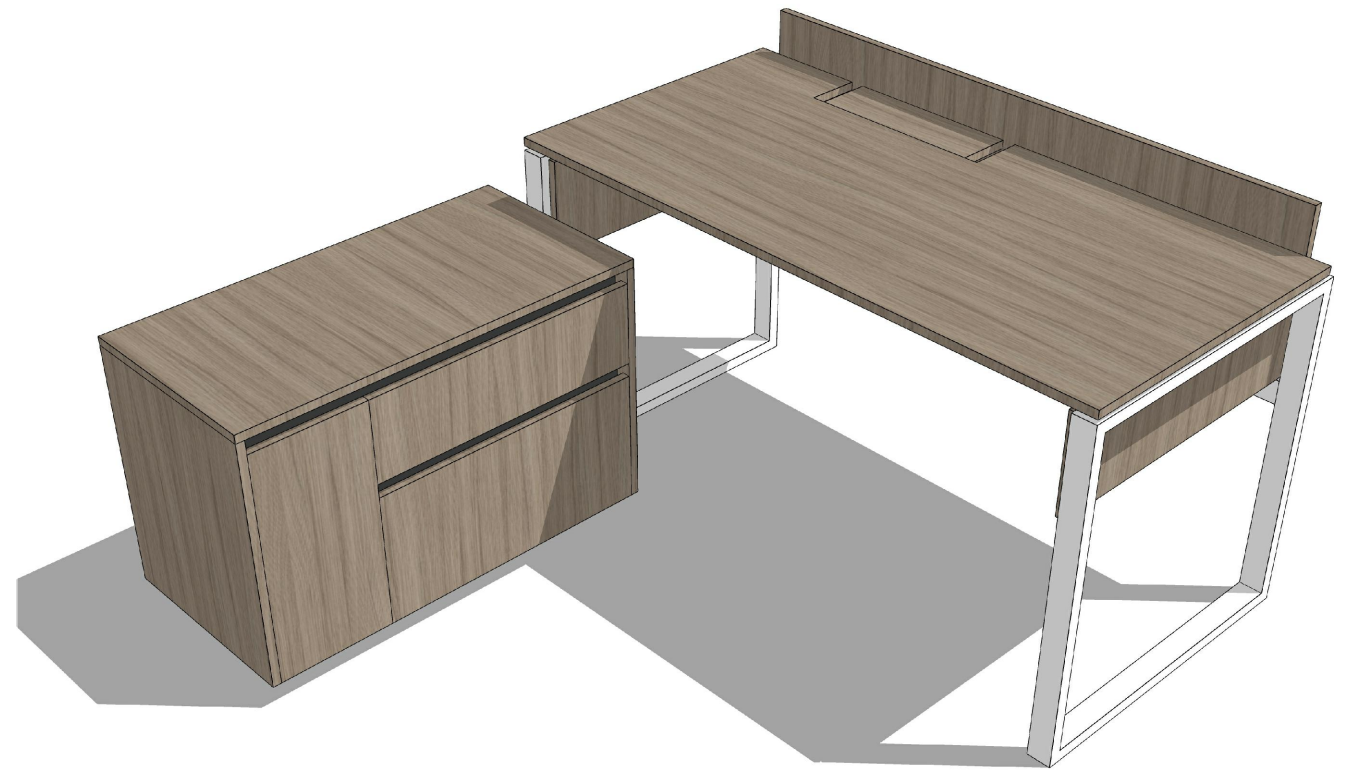

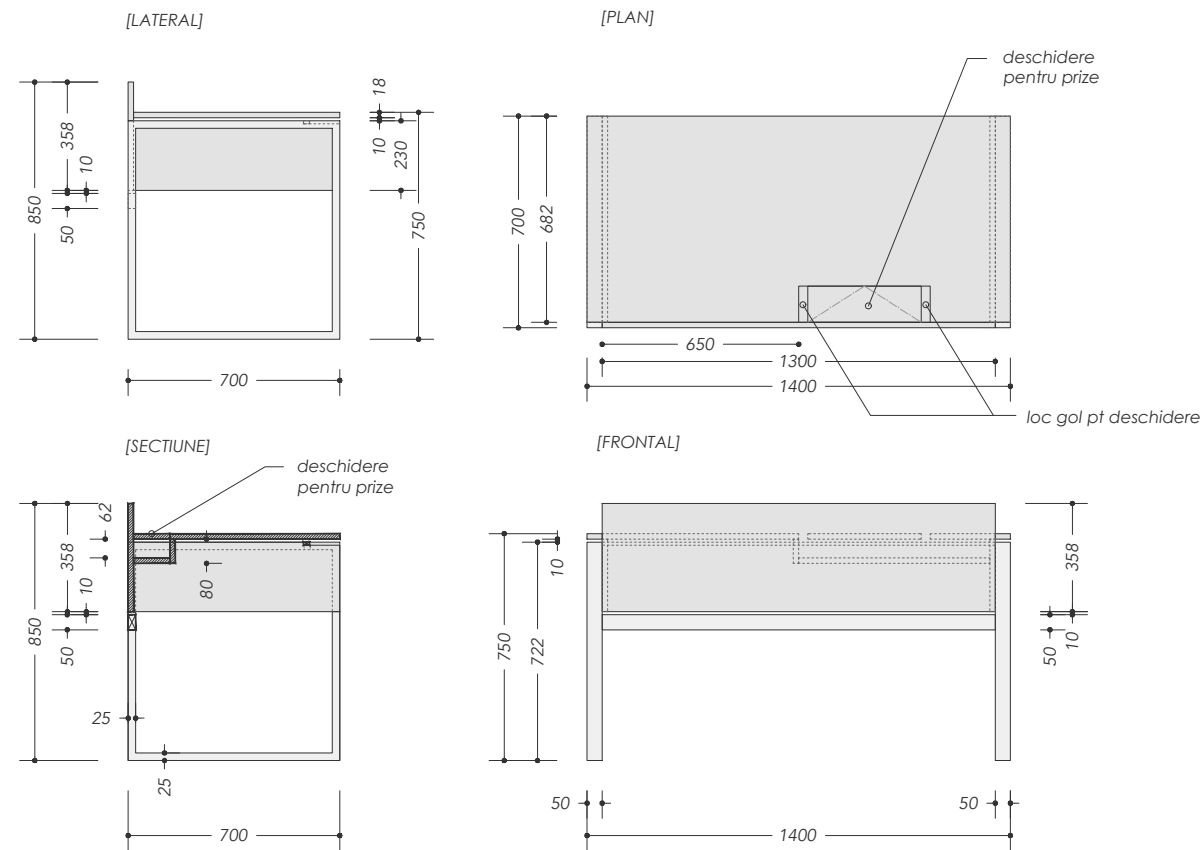

This technical drawing illustrates the cross-section of a ship's hull, detailing its structural components and dimensions. The hull is shown with a curved bottom and a flat deck. Key dimensions include a total width of 1850 at the top, a deck height of 1550, and a bottom height of 700. The hull is divided into sections labeled [A], [B], [C], and [D]. The bottom structure is labeled [A] and [B]. The deck structure is labeled [C] and [D]. The hull is shown with a curved bottom and a flat deck. Key dimensions include a total width of 1850 at the top, a deck height of 1550, and a bottom height of 700. The hull is divided into sections labeled [A], [B], [C], and [D]. The bottom structure is labeled [A] and [B]. The deck structure is labeled [C] and [D]. The hull is shown with a curved bottom and a flat deck. Key dimensions include a total width of 1850 at the top, a deck height of 1550, and a bottom height of 700. The hull is divided into sections labeled [A], [B], [C], and [D]. The bottom structure is labeled [A] and [B]. The deck structure is labeled [C] and [D].
