Project Description

“Enhancing democracy in Moldova through inclusive and transparent elections” (EDMITE Project) is a project that sets the overall goal to achieve an enhanced transparency and inclusiveness of the electoral process in Moldova through a modernized IT system, improved legislation and intensified public participation, addressing the root causes of the current challenges hampering the further development of the democracy and the advancement of the electoral process in the Republic of Moldova.

The main objectives of the Project are to contribute to achieving a more accurate State Register of Voters, improving the quality and accessibility of data by re-engineering the Civil Status Acts System and Address Register Information System, and facilitating data exchange and interoperability between different central public institutions via the governmental platform for data exchange (MConnect).

To achieve these objectives, the Project is partnering with the Central Electoral Commission (CEC), the Public Services Agency (PSA) and the Electronic Governance Agency (EGA). These are different state actors that own important population registration data sets necessary for fair and credible elections. Specific Project’s interventions aim at improving the systems and processes in the partner institutions to ensure a reliable quality and timely data supply to the State Register of Voters, thus enhancing the integrity of the electoral process.

A distinct thematic focus of the Project is to enhance the awareness on political participation and electoral processes via a series of multi-layered interventions. The Project supports the CEC in designing and implementing large-scale civic education and voter information programmes, offers strategic communication expertise and facilitates other activities to generate a positive change and deliver tailored information to a wide spectrum of target groups (including women, youth and first-time voters, ethnic and linguistic minorities, diaspora, people with disabilities, etc.).

In 2018, the Project provided support to the CEC in designing and conducting a large-scale Civic Education Campaign “Democrația Contează” oriented towards better informing and engaging the general public, and particularly first-time voters, women, people with disabilities, ethnic and linguistic minorities and Diaspora with respect to the Parliamentary Elections conducted for the first time based on a new electoral mixed system. As a result, during April – December 2018, the civic education and voter information efforts reached more than 340,000 direct beneficiaries.

The purpose of the current support is to ensure a logical continuation of the Civic Education Campaign “Democrația Contează” with a particular focus on the General Local Elections, but also on the active citizenship and democratic processes, aiming at creating mechanisms to empower and foster civic participation, as well as building strong and sustainable information and education network. In this context, both the content of the Civic Education Campaign and the image of the CEC as a professional delivering institution, may contribute tremendously to advancing transparent and inclusive electoral processes and generating an increase of trust among citizens in the democratic electoral exercises.
