Background

UN Women, grounded in the vision of equality enshrined in the Charter of the United Nations, works for the elimination of discrimination against women and girls; the empowerment of women; and the achievement of equality between women and men as partners and beneficiaries of development, human rights, humanitarian action and peace and security.

In 2018 UN Women Moldova Country Office started to implement its new [Strategic Note \(SN\) for 2018-2022](#), which is aligned with the [Republic of Moldova–United Nations Partnership Framework for Sustainable Development 2018–2022](#) and the [Global Strategic Plan of UN Women](#). Under its current SN, UN Women cooperates closely with the government, civil society, academia, private sector and the media to advance social, economic and political rights and opportunities for women and girls, placing special focus on those from marginalized, excluded and under-represented groups. These include rural women, Romani women, women with disabilities, women living with or affected by HIV, women survivors of violence, women migrants, elderly women and others. UN Women’s operation in Moldova focuses on bringing about concrete change in the lives of women and the society towards the long-term impact of achievement of gender equality and the empowerment of women and girls in the country. Specifically, the SN 2018-2022 advances progress under the following three Impact Areas (IA): IA1: More women fully participate and lead in gender responsive governance processes and institutions, including in the security sector, IA2: Women have income security, decent work and economic autonomy, IA3: Public authorities, institutions and communities prevent violence against women and girls and deliver quality essential services. Towards these Impact Areas, UN Women works with variety of national and international partners to challenge gender-based stereotypes and towards the creation of an environment, whereby women act as key agents of change towards greater equality and development, in partnership with men and boys.

Rationale

UN Women supported the process of developing the [National Strategy for Gender Equality for 2017-2021](#) adopted in April 2017. Under its “Gender Equality in Peace and Security Sector” area of intervention and forth overall objective on “Ensuring gender equality in the security and defense sector”, the Strategy envisages two specific objectives to be achieved as a result of implementation of a set of 13 activities, such as promotion of women in managerial positions in security and defense institutions, enhancing capacities of the personnel of in-line institutions on promotion and implementation of policies on ensuring gender equality in security and defense sector, raising awareness of the personnel from in-line ministries on equal treatment and work-life balance, including in the Curriculum of subjects on gender equality in security and defense sector, development of mechanism to prevent

and control sexual harassment, ensuring implementation of the CEDAW Committee's General Recommendation no. 30 and of UN Security Council Resolution 1325 (UN SCR 1325) on Women, Peace and Security, etc.

An important breakthrough occurred in May 2017, when after months of deliberations and advocacy, a Government Decision was adopted (Order no. 54-d from May 29, 2017) which formally launched the process of developing National Action Plan (NAP) on the Implementation of UN SCR 1325. UN Women provided extensive technical support to the Government in raising awareness and knowledge on the women, peace and security agenda and on gender mainstreaming in the security and defense sector, in the process of preparation for and development of the NAP on UN SCR 1325. In March 2018, the [National Programme on Implementation of UN Security Council Resolution 1325 on Women, Peace and Security for 2018-2021](#) and the Action Plan on its implementation were adopted. The National Programme recognizes the key role women play in peace building and ensuring security and proposes concrete actions to address barriers against increased representation and influence of women in the security sector in the Republic of Moldova. Under the framework of the National Programme on UN SCR1325, the Ministry of Defense adopted its own Action Plan on its implementation within the National Army which aims to operationalize further the actions envisaged within the Programme.

UN Women is committed to provide continuous support to relevant governmental institutions, including to Ministry of Defense, on promotion of the women, peace and security agenda and on achieving specific results envisaged in the National Programme. The cooperation between UN Women and the Ministry of Defense (MoD) of the Republic of Moldova, initiated in 2015, was further consolidated with the signing of a Memorandum of Cooperation in July 2018. The main objective of the Memorandum is to increase institutional capacities and knowledge of the institution in the areas of gender equality and implementation of UN SCR 1325 and other WPS-related Resolutions. Specifically, the Memorandum of Cooperation seeks to contribute to reduce the stereotypes about the role of women in the security and defense sector, to improve the opportunities for women and men from the system to reconcile the professional and family life, to prevent and respond to discrimination, harassment, and gender-based violence within the sector, etc.

In the framework of the Memorandum of Understanding between UN Women and the Ministry of Defense, UN Women has committed to provide technical support to the MoD to strengthen its internal capacities on gender mainstreaming and advancing the WPS agenda. In this respect, UN Women Moldova is seeking to contract a gender expert to provide extensive support in gender mainstreaming within Ministry of Defense.

Scope of Work:

Under the overall guidance and direct supervision of the UN Women Programme Coordinator on Women in Leadership and in close cooperation with the senior leadership of the Ministry of Defense and its designated representatives, as per Activity 1 of the Biannual Action Plan 2018-2019 (Support on gender sensitive policies through a gender adviser within the MoD) envisaged in the Memorandum of Understanding signed between UN Women and Ministry of Defense as of 17 July 2018, the selected gender expert will support the Ministry of Defense in implementing gender equality commitments and mainstreaming gender equality in the defense sector.

In July 2010, the United Nations General Assembly created UN Women, the United Nations Entity for Gender Equality and the Empowerment of Women. The creation of UN Women came about as part of the UN reform

agenda, bringing together resources and mandates for greater impact. It merges and builds on the important work of four previously distinct parts of the UN system (DAW, OSAGI, INSTRAW and UNIFEM), which focused exclusively on gender equality and women's empowerment.

The United Nations in Moldova is committed to workforce diversity. Women, persons with disabilities, Roma and other ethnic or religious minorities, persons living with HIV, as well as refugees and other non-citizens legally entitled to work in the Republic of Moldova, are particularly encouraged to apply.

Evaluation Procedure

Initially, candidates will be short-listed based on the minimum qualification criteria of education, experience and language indicated in ToR:

The short-listed individual consultants will be further evaluated based on a **cumulative analysis** scheme, with a total score being obtained upon the combination of weighted technical and financial attributes. Cost under this method of analysis is rendered as an award criterion, which will be 30% out of a total score of 500 points.

Evaluation of submitted offers will be done based on the following formula:

$$B = T + \frac{C_{low}}{C} \times X$$

where:

- T* is the total technical score awarded to the evaluated proposal (only to those proposals that pass 70% m 350 points obtainable under technical evaluation);
- C* is the price of the evaluated proposal;
- C_{low}* is the lowest of all evaluated proposal prices among responsive proposals; and
- X* is the maximum financial points obtainable (150 points)

Technical evaluation will be represented through desk review of applications and further interview will be organized if needed, depending on the short-listed candidates' qualifications.

A) Technical Evaluation: The technical part is evaluated on the basis of its responsiveness to the Terms of Reference (TOR).
