I. BACKGROUND

The overall objective of the EU Confidence Building Measures Programme (the EU CBM 5 Programme), is to contribute to an environment of trust and cooperation across the Nistru River generating new perspectives on shared interests and a shared future for people from both banks of the river while responding to their pressing development needs. The EU CBM 5 Programme represents a framework for engaging in development interventions across the security zone on both sides of the Nistru River, comprising a series of activities that strengthen, regularize and intensify interaction between otherwise divided societies, aiming to establish this interaction as a norm.

The fifth phase of EU CBM Programme started in January 2019 and consists of 4 components: Support to Economic Development and Entrepreneurship, Community Development and Cross-river Sectoral Platforms, Cultural and Historical Heritage Support and Support to Cooperative Media Content Development.

Through previous four phases from 2009 until present, over 95 social infrastructure projects were rehabilitated on both banks of the Nistru River, such as education, environment, culture, sport and health facilities, as well as improvements to critical physical infrastructure, such as water supply, sewage networks and waste management facilities. Each project aimed at promoting people-to-people contacts and cross-river exchanges, with the view of building confidence among the population from both sides of the Nistru river.

In the Phase 4 of Confidence Building Measures Programme, five thematic collaboration platforms in the area of environment, health, culture, education and sports, were established in order to support the initiation of mutually beneficial sectorial dialogue and projects, as well as capacity building and transfer of experience from one bank to another. The ideas generated through thematic collaboration platforms were to be translated into specific confidence-building projects and blueprints for the upcoming development interventions. The thematic platforms were established to emerge increased number of cross-river collaboration and confidence building activities.

EU CBM Programme in its fifth phase continue supporting the cross-river platforms, focusing on their further qualitative and quantitative development through generating new thematic solutions and developing strategic

directions with strong confidence building elements, through expanding their membership, and broadening areas of cooperation between NGOs and professionals from both banks of Nistru river.

Given the number of thematic platforms and the specific complexity of the process, a National Consultant is required to evaluate the platforms development to date, provide continuous guidance to platform leaders in the process of further development of their response to thematic problems, long-term strategies, assistance on their network expansion, and contribution for Platforms strengthening and sustainability.

II. OBJECTIVES AND EXPECTED DELIVERABLES OF THE ASSIGNMENT

The overall objective of the National Consultant on Cross-River Sectoral Platforms Institutional Capacity development (hereinafter National Consultant) is to support the institutional capacity development and strengthening of five thematic cross-river platforms created with support of EU CBM 5 Programme through provision of continuous guidance to platform leaders and ensuring efficient overall confidence building within activities implemented under the thematic collaboration platforms.
