SECTION 5. TERMS OF REFERENCE

Promotion activities aiming to strengthen capacities of investment profiles beneficiaries

- A. Project “EU4MOLDOVA: FOCAL REGIONS PROGRAMME
B. PROJECT DESCRIPTION

General Background:

The EU4Moldova: Focal regions Programme (further on referred as Programme) is based on the European Commission Implementing Decision on the Annual Action Programme 2018 in favour of the Republic of Moldova and is funded by the European Union and implemented by the United Nations Development Programme and United Nations Children's Fund.

The overall objective of the five-year Programme is to strengthen the economic, territorial and social cohesion in the Republic of Moldova through smart, green, inclusive, sustainable and integrated local socio-economic growth as well as by improving the standards of living of the citizens in the focal regions of Cahul and Ungheni.

To this end, this Programme will address also the urban-rural divide as well as regional disparities, stimulate economic growth and job creation, refurbish and upgrade some social and technical infrastructure in selected areas (smaller towns and villages) while taking into account climate change and a gender perspective in the activities of the Programme.

Specific objectives:

1. To strengthen transparency, accountability of local public authorities and citizen participation in local governance processes in the focal regions.
2. To improve citizens' access to quality public services and utilities in the focal regions.
3. To create employment opportunities for men and women in the focal-regions and improve the attractiveness of the focal regions for investors and entrepreneurs.
4. To promote the smart specialization of the economy of the focal regions through the development of the clustering and value chain approach in key economic sectors.

The Programme objectives will be achieved through measures targeted at: (i) capacity building to support the implementation and monitoring of local economic development plans; (ii) civil society engagement in local planning, governance processes and basic social service delivery; (iii) provision of investment funding in support of the creation and/or development of social and technical infrastructure which, combined with the outcomes from interventions (i) and (ii) above, will have an immediate, visible and tangible impact on employment creation, the standard of living of the population in the focal regions.

C. SPECIFIC CONTEXT

Under Component 3 of the Programme, it is envisaged to help the economies of focal regions Ungheni and Cahul to boost economic development and implement a consistent package of ‘economic turnaround’ measures, aiming to improve their domestic and international image as ‘emerging regional growth poles’ with conducive business environment and amplified investment and entrepreneurship activities through greener economic specialization development approach.

The supported activities and actions will follow the most innovative methodological tools and international experiences related to enabling tangible and intangible business environment factors, place branding, attraction of external investors, expansion of existing firms and start-ups interventions, as well as pro-growth urban revitalization.

The EU4Moldova: Focal regions Programme elaborated focal regional 'Portfolio of Investment Opportunities' (Cahul and Ungheni). The 'Portfolio' consists of 41 feasible and detailed investment proposals (for both Focal regions), elaborated in Romanian, Russian, English, French, and German languages. 'Portfolio' will be promoted through all available local, regional, national, and international channels (Moldovan Embassies, National Investment Agency, various Business Forums, Chamber of Commerce and Industry, Free Economic Zones etc.)

An important aspect: a strong focus on focal regional development priorities will be kept. All the investment opportunities are targeting the 'gap needs' of key economic sectors – supporting the internationalization of regional economies through integration of key-economic sectors into advanced international (primarily EU) value chains. Business opportunities are reflecting various possible investment schemes: 'Greenfields', 'Brownfields', venture capital, start-ups, etc.

Portfolio on investment opportunities is targeting also Circular Economy principles, as main tool aiming to improve product durability, reusability, upgradability and reparability, increasing recycled content of products, while ensuring their performance and safety.

D. SCOPE OF WORK

The business environment is often cited as one of the main determinants of enterprise and private sector development. Largely shaped by government policies and legislation, the business climate is influenced by administrative conditions, the quality of institutions and infrastructure, political and economic stability, and the effectiveness of regulatory frameworks, as well as the level of corruption. When the business environment is not conducive, it can increase enterprises' direct and indirect production costs, inhibit the adoption of new technologies, deter investment, weaken competitiveness, and reduce market sizes. Lack of access to finance is another major constraint to entrepreneurship and private sector development, particularly for small and medium-sized enterprises in Republic of Moldova.

To ensure improved access to finance, private entities need to build functional financial and investment backgrounds, strengthen their capacities, and turn small and medium-sized enterprises and entrepreneurs into viable investment targets.

To implement a consistent package of 'economic turnaround' measures, aiming to improve domestic and international image as 'emerging regional growth poles' with conducive business environment and amplified investment and entrepreneurship activities, the Programme is seeking a local or international company (hereinafter Contractor) to perform Mentoring and promotion activities aiming to strengthen capacities of investment profiles beneficiaries of "Portfolio of Investment Opportunities".
