

Questions Clarification

LRQS-2023-9182875 PROVISION OF ASSESSMENT, SURVEY, STRATEGY DEVELOPMENT AND ENGINEERING SERVICES in Moldova (WASH in schools)

1.

Question:

Could you please identify and provide locations per every school?

Answer:

Please consider that selection of the locations is part of the intervention. The offer may be structured considering the average distances (using price per KM and working days for the involved specialists/ experts).

2.

Question:

Could you please provide the number of students in every school?

Answer:

The offer needs to be structured based on an average cost or by providing details on the cost of the design for a small school (approx. 200 students), a medium school (approx. 500 students) and a school with more than 1000 students.

3.

Question:

Could you please provide the number of experts to be involved?

Answer:

Please provide the inputs based on the bidder's capacities and resources and the volume of the work.

4.

Question:

The period of 6 months is not enough to finalize this project respecting all requirements from the ToR, considering that in a lot of schools it is necessary to elaborate technical drawings after initial Topo and Geo measures, to connect building to a central water source, to develop drawings for the Waste Water Treatment Plant, verify and approve all the drawings per each section (Architecture, Structure, Electric, Heating Ventilation, Water and sanitation, Technology, General Plan, BoQ).

Answer:

Please provide the timeline you consider appropriate following all the described steps. The timeline will be structured considering the minimum required time and the number of involved experts (expert days). You may also notice that the exact deadlines will be mutually agreed upon contract signature.

5.

Question:

Could you please clarify the exact requirements and adjust ToR to be possible to evaluate technical and financial offer?

Answer:

The offers will be evaluated as per the proposed ToR. The proposed timeframe is given for reference. The technical offer should provide clear information about the involved resources (experts, volumes of work and timeline) for the completion of the services/actions.
