

Questions Clarification

LRPS-2023-9185499 Methodology Development for the assessment of teachers' digital competencies and the Digital Technologies Curriculum for Teacher Professional Development (TPD)

1.

Question:

Please clarify in which language(s) the Methodology and Curriculum are to be developed?

Answer:

The Curriculum has to be developed in both Romanian and Russian, whereas the Methodology has to be developed exclusively in Romanian language.

2.

Question:

In the Technical Proposal it is required to include *Evidence in the form of job completion certificate, contracts and/or references*. Does it refer to the organization or to the team members?

Answer:

Please provide any documentation that can verify the completion of organization's related activities. This will include the following: Project Title, Brief Description, Donors, Beneficiaries, Links to results, and any other pertinent information.

3.

Question:

With regards to the task of the Deliverable 3 "*Elaborate the Digital Technologies Curriculum for TPD in alignment with DigCompEdu proficiency levels* ", please clarify how many credits the course referred to in the curriculum should have? Is it the minimum of 3 credits? This is important to know as it will determine on how extensive you'd like the course syllabus to be developed/proposed.

Answer:

Please consult Ministry of Education and Research Order No. 93/2023 concerning the methodology for adult professional development programs. This curriculum is specifically designed for the continuous professional development of teachers.

4.

Question:

The Technical proposal should include *Project dependencies, risks and assumptions, as well as proposed relevant mitigation measures*. Can you please clarify and explain what information has to be included exactly at this point.

Answer:

The Company/Organization must foresee any potential risks which can delay or procrastinate the execution of works and suggest what would be the preventive measures (what additional measures could be undertaken to reduce or eliminate the risks).

5.

Question:

Will the selected Company/Organization be responsible for developing the assessment tools (for example an App, multiple quizzes, etc.) or it has to come with recommendations of assessment tools only?

Answer:

The company will be responsible for elaboration of assessment criteria and development or recommendation of the assessment tools.
