

## REQUEST FOR QUOTATION No. RfQ26/03218

### ENERGY AUDIT SERVICES FOR 25 MULTI-STOREY RESIDENTIAL BUILDINGS 3 LOTS

UNDP through the “Greening the future, advancing rights and stability Moldova” Project kindly requests your quotation for the Request for Quotation no. **RfQ26/03218: Energy audit services for 25 multi-storey residential buildings** as detailed in line items section of this RFQ.

This Request for Quotation comprises the following documents:

Section 1: This RFQ document generated by the online system

Section 2: RFQ Instructions and Data

Annex 1: Terms of Reference

Annex 2: Quotation Submission Form

Annex 3: Technical and Financial Offer

Annex A: Totalizing Table

When preparing your quotation, please be guided by the RFQ Instructions and Data. Please note that quotations must be submitted directly in the system responding to the questions and uploading required documents by the date and time indicated in the online portal. It is your responsibility to ensure that your quotation is submitted before the deadline. Quotations received after the submission deadline outside the online portal, for whatever reason, will not be considered for evaluation.

Quotations must be submitted directly in Quantum Supplier Portal following the link: <http://supplier.quantum.partneragencies.org> using the profile you may have in the portal (please log in using your username and password).

Follow the instructions in the user guide to search for the tender using search filters, namely **Negotiation ID: UNDP-MDA-00907** and subscribe to the tender in order to get notifications in case of amendments of the tender document and requirements.

In case you have never registered before, follow this link to register a profile:

**Please note that the access link to the Supplier registered profile is sent from Oracle within up to 3 days. In case you have not received the access link after 3 days since registration, you should address for support to UNDP at the email address: [sc.md@undp.org](mailto:sc.md@undp.org).** In case you encounter errors with registration (e.g. system states Supplier already is registered), you should address for support to UNDP at the email address: [sc.md@undp.org](mailto:sc.md@undp.org).

Computer firewall could block *oracle* or *undp.org* extension and Suppliers might not receive the Oracle notifications. Please turn down any firewalls on your computers to ensure receipt of email notification.

Do not create a new profile if you already have one. Use the forgotten password feature in case you do not remember the password or the username from previous registration.

Should you require further clarifications on the application through the Quantum online portal, kindly contact the Procurement Unit at [sc.md@undp.org](mailto:sc.md@undp.org). Please pay attention that the bid shall be submitted online through the Quantum system and any bid sent to the above email shall be disqualified.

Should you require further clarifications on the Request for Quotation, Terms of Reference or other requirements, kindly communicate using the messaging functionality in the portal.

Deadline for Submission of Offers (Date and Time), which is visible in the online procurement system will be final. System will not accept submission of any bid after that date and time. It is the responsibility of the bidder to make sure that the bid is submitted prior to this deadline for submission.

Bidders are advised to upload bid documents and to submit their offer a day prior or well before the date and time indicated under the deadline for submission of Offers. Do not wait until last minute. If Bidder faces any issue during submitting offers at the last minutes prior to the deadline for submission, UNDP may not be able to assist on such a short notice and will not be held liable in such instance. UNDP will not accept any offer that is not submitted directly through the System.

Thank you and we look forward to receiving your quotation.

Bidders found to have a conflict of interest shall be disqualified.</p> <p>Bidders must disclose in their Bid their knowledge of the following: a) If the owners, part-owners, officers, directors, controlling shareholders, of the bidding entity or key personnel who are family members of UNDP staff involved in the procurement functions and/or the Government of the country or any Implementing Partner receiving goods and/or services under this RFQ.</p> <p>The eligibility of Bidders that are wholly or partly owned by the Government shall be subject to UNDP's further evaluation and review of various factors such as being registered, operated and managed as an independent business entity, the extent of Government ownership/share, receipt of subsidies, mandate and access to information in relation to this RFQ, among others. Conditions that may lead to undue advantage against other Bidders may result in the eventual rejection of the Bid.</p>
<b>Currency of Quotation</b>	Quotations shall be quoted in the currency indicated in the portal.
<b>Joint Venture, Consortium or Association</b>	<p>If the Bidder is a group of legal entities that will form or have formed a Joint Venture (JV), Consortium or Association for the Bid, they shall confirm in their Bid that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the JV, Consortium or Association jointly and severally, which shall be evidenced by a duly notarized Agreement among the legal entities, and submitted with the Bid; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture, Consortium or Association.</p> <p>Refer to Clauses 19 – 24 under <a href="#">Solicitation policy</a> for details on the applicable provisions on Joint Ventures, Consortium or Association.</p>

<b>Only one Bid</b>	<p>The Bidder (including the Lead Entity on behalf of the individual members of any Joint Venture, Consortium or Association) shall submit only one Bid, either in its own name or, if a joint venture, Consortium or Association, as the lead entity of such Joint Venture, Consortium or Association.</p> <p>Bids submitted by two (2) or more Bidders shall all be rejected if they are found to have any of the following:</p> <ul style="list-style-type: none"> <li>a) they have at least one controlling partner, director or shareholder in common; or b) any one of them receive or have received any direct or indirect subsidy from the other/s; or</li> <li>b) they have the same legal representative for purposes of this RFQ; or</li> <li>c) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Bid of, another Bidder regarding this RFQ process;</li> <li>d) they are subcontractors to each other's Bid, or a subcontractor to one Bid also submits another Bid under its name as lead Bidder; or</li> <li>e) some key personnel proposed to be in the team of one Bidder participates in more than one Bid received for this RFQ process. This condition relating to the personnel, does not apply to subcontractors being included in more than one Bid.</li> </ul>
<b>Price variation</b>	No price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted at any time during the validity of the quotation after the quotation has been received.
<b>Alternative Quotes</b>	If alternative quote is permitted, it may be submitted only if a conforming quote to the RFQ requirements is submitted. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative quote. If multiple/alternative quotes are being submitted, they must be clearly marked as "Main Quote" and "Alternative Quote" directly in the portal and in any supporting document as relevant.
<b>Contact Person for correspondence, notifications and clarifications</b>	<p>Must be submitted directly in the portal using the messaging functionality.</p> <p><b>Any delay in UNDP's response shall be not used as a reason for extending the deadline for submission, unless UNDP determines that such an extension is necessary and communicates a new deadline to the Proposers.</b></p>
<b>Right not to accept any quotation</b>	UNDP is not bound to accept any quotation, nor award a contract or Purchase Order
<b>Right to vary requirement at time of award</b>	At the time of award of Contract or Purchase Order, UNDP reserves the right to vary (increase or decrease) the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.
<b>Publication of Contract Award</b>	UNDP will publish the contract awards valued at USD 100,000 and more on the websites of the CO and the corporate UNDP Web site.
<b>Policies and procedures</b>	This RFQ is conducted in accordance with <a href="#">UNDP Programme and Operations Policies and Procedures</a>
<b>UNGM registration</b>	Any Contract resulting from this RFQ exercise will be subject to the supplier being registered at the appropriate level on the United Nations Global Marketplace (UNGM) website at <a href="http://www.ungm.org">www.ungm.org</a> . The Bidder may still submit a quotation even if not registered with the UNGM, however, if the Bidder is selected for Contract award, the Bidder must register on the UNGM prior to contract signature.

## SECTION 2: SPECIAL INSTRUCTIONS

<b>General Conditions of Contract</b>	Any Purchase Order or contract that will be issued as a result of this RFQ shall be subject to one of the General Conditions of Contract below as applicable in each case specified in the Requirements section Applicable GTC: <input checked="" type="checkbox"/> <a href="#">General Terms and Conditions / Special Conditions for Contract.</a> Applicable Terms and Conditions and other provisions are available at <a href="https://www.undp.org/procurement/business/how-we-buy">https://www.undp.org/procurement/business/how-we-buy</a>
<b>Special Conditions of Contract</b>	<input checked="" type="checkbox"/> Cancellation of PO/Contract if the delivery/completion is delayed by 30 days <input checked="" type="checkbox"/> Liquidates damages shall be imposed as follows: Percentage of contract price per week of delay: 2.5% up to a maximum of 10%, after which UNDP may terminate the contract.
<b>Duties and taxes</b>	Article II, Section 7, of the Convention on the Privileges and Immunities provides, inter alia, that the United Nations, including UNDP as a subsidiary organ of the General Assembly of the United Nations, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties, and charges of a similar nature in respect of articles imported or exported for its official use. All quotations shall be submitted net of any direct taxes and any other taxes and duties, unless otherwise specified in the requirements section. All prices must: <input checked="" type="checkbox"/> <b>be exclusive of VAT and other applicable indirect taxes</b>
<b>Eligibility</b>	A vendor who will be engaged by UNDP may not be suspended, debarred, or otherwise identified as ineligible by any UN Organization or the World Bank Group or any other international Organization. ## **ANNEX 1: TERMS OF REFERENCE**

### **1. GENERAL INFORMATION**

The Republic of Moldova faces significant challenges in its energy sector, characterized by high dependency on imported energy resources and inefficiencies in consumption patterns. In 2022, the country's total final energy consumption reached approximately 2.5 million tons of oil equivalent (Mtoe), with the residential sector accounting for around 45% of this total. More recent estimates indicate that this sector consumes nearly 48-50% of the nation's overall energy, making it the largest single consumer. This high demand is primarily driven by outdated and inefficient heating systems in residential buildings, including multi-apartment blocks, which rely heavily on fossil fuels and biomass, leading to substantial energy losses and environmental impacts.

Energy efficiency improvements in the residential sector are critical for the country, as they contribute to reducing overall energy consumption, lowering greenhouse gas emissions, and enhancing energy security amid geopolitical vulnerabilities and fluctuating global energy prices. Conducting energy audits is a foundational step in this process, enabling the identification of inefficiencies, such as poor insulation, outdated HVAC systems, and wasteful energy use practices. These audits provide actionable recommendations for retrofits and upgrades, aligning with national policies like the Law on Energy Efficiency and international commitments, including those under the Energy Community Treaty and EU directives. For the country as a whole, widespread adoption of energy audits supports sustainable development goals, fosters economic savings through reduced import bills, and promotes a transition to cleaner energy sources.

For residents, the benefits of energy retrofitting apartment buildings are equally compelling: lower utility costs, improved living comfort through better thermal regulation, and enhanced health outcomes by mitigating issues like mold and poor indoor air quality associated with inefficient buildings. In the context of Moldova's ongoing efforts to modernize its housing stock - where public and residential buildings still depend on fossil fuel heating - energy audits empower homeowners' associations and communities to access funding for renovations and achieve long-term energy independence.

In this regard, the Financing Program "Energy Efficiency Fund in the Residential Sector of the Republic of Moldova" (hereinafter - the FEERM Program) was approved, the general objective of which is to promote and facilitate the efficient use of energy by household consumers by capitalizing on the potential for improving energy consumption efficiency in residential buildings, resulting in reducing the population's expenses for energy resources, increasing the level of comfort in homes, improving the aesthetic appearance of buildings, increasing the value of real estate and reducing greenhouse gas emissions.

In order to benefit from financing from the FEERM Program, several financing products have been developed, one of which is intended for residential blocks managed by Condominium Owners' Associations. Energy audits of residential buildings will be carried out in order to assess the current state of the envelope of residential blocks and of internal installations for the distribution and consumption of thermal energy and domestic hot water, to analyze the energy consumption recorded within them, as well as to estimate the potential for saving energy resources, by presenting technical and/or organizational measures in this regard, including by arguing their technical and economic feasibility. Following the recommendations from the energy audit, the aim is to improve the energy efficiency of buildings by implementing high-performance solutions, technologies and materials.

Within this framework, the project "Greening the Future and Advancing Rights and Stability", implemented by the United Nations Development Programme (UNDP) in Moldova with financial support from the Government of Denmark, aims to conduct 25 energy audits for multi-apartment buildings managed by homeowners' associations. This initiative will not only address immediate energy inefficiencies but also serve as a scalable model for expanding energy-saving measures across the residential sector, ultimately benefiting both the national economy and individual households.

### **2. PURPOSE AND OBJECTIVES OF REQUIRED SERVICES**

Energy audit services for 23 condominium associations in 25 multi-storey buildings to identify, size and evaluate measures to increase energy efficiency and capitalize on renewable energy sources. Information about the buildings for which the energy audits are to be carried out is presented below. The buildings to be audited are divided into 3 lots as follows:

### 3. DUTIES AND RESPONSIBILITIES

In order to achieve the stated objective of the requested services, the contracted company must fulfill the tasks and responsibilities described below.

1. Elaboration of the work plan and its coordination with the project team.
2. Carrying out field visits according to the agreed work plan for documentation and data collection. The project team will facilitate the interaction with the beneficiary institutions.
3. Preparation of energy audit reports for each individual object (building). The energy audit reports will be drafted considering the Minimum Requirements for the energy audit in the buildings sector and taking into account the minimum technical specifications of materials and equipment in the "Guide for the implementation of energy efficiency measures and the use of renewable energy sources in the residential sector". For the preparation of energy audit reports, the report model approved by the CNED.
4. The specialists proposed in the list of auditors who will perform the work must not be under any restrictions, suspensions imposed by the legislative framework in force. The evaluation team undertakes to verify these cases.

#### Energy audits must meet the following requirements:

- be based on up-to-date, measured and verifiable operational data on energy consumption, including electrical load curves;
- contain a detailed assessment of the energy consumption profile in buildings;
- be based on both a life-cycle cost analysis of technologies and a simple cost/investment payback period analysis, in line with the requirements of a potential financier of energy efficiency measures, to take into account long-term energy savings, long-term investments, residual values and discount rates;
- the data used are proportionate and sufficiently representative to allow a reliable overview of the overall energy performance and the reliable identification of the optimal energy efficiency measures;
- be based on detailed and validated calculations justifying the proposed measures in order to present clear information on the potential energy savings.

#### Volume of services

- The Provider will carry out energy audits for the multi-storey residential blocks specified in the lots and will prepare the related energy audit reports.
- The energy audits will cover the entire building envelope of the multi-storey residential blocks and the internal installations for the distribution and consumption of electricity, heat and DHW.

- The Provider will prepare a totalizing table (**Annex A. Totalizing Table**) in which it will present the summary of the energy rehabilitation measures of the residential block/blocks, indicating the total areas/volumes of works, including their cost.

#### **Service provision requirements**

1. The collection of information and the development of potential energy rehabilitation measures will be carried out during field visits to the housing blocks. UNDP will provide the Provider with the contact details of the beneficiaries, together with the previously collected information.
2. The measures to be examined by the consultant company/s will have an innovative approach and will not be limited to:
  - Thermal insulation of exterior walls
  - Insulation of the foundation walls and the building base above ground level
  - Basement thermal insulation
  - Roof thermal insulation (all types)
  - Thermal insulation of the technical floor
  - Replacement of exterior doors and/or windows (in common areas)
  - Modernization of elevators to improve energy efficiency
  - Renovation of lighting in the common areas of the building
  - Installation of the heating system with horizontal distribution of the heat carrier
  - Installation or modernization of individual heat point (ITP)
  - Installation of photovoltaic/thermal solar panel system on the roof
  - Installation of electric car charging stations
3. After elaboration of the Energy Audit Reports for the residential blocks, the provider will prepare a totalizing table (**Annex 1**) in which will present the summary of the energy rehabilitation measures, indicating the total areas/volumes of works, including their cost and technical, economic and financial indicators according to requirements.
4. Energy audits will be carried out by energy auditors not included in the list of sanctions (suspension/deletion) from the CNED electronic register.
5. When developing the set of recommendations and measures to improve the efficiency of energy resource consumption, the provider will take into account the provisions of the legislation affecting the energy performance of buildings, energy labeling, and eco-design requirements applicable to energy-impact products, in order to align them with national energy policies.
6. In addition to the set of recommendations and measures for energy efficiency and measures to capitalize on renewable energy sources, the Energy Audit Report will contain appropriate protection measures to avoid their degradation/damage. All of these will be included in the calculation of the cost of implementing energy efficiency measures.
7. In the Energy Audit Report, the Provider will specify the order of implementation of the recommended measures, in order to achieve maximum energy savings at optimal cost, ensure the sustainability of the implemented measures, etc.
8. The Provider is liable, in relation to the Contracting unit, for the damage caused by the energy audit carried out, by inadequate consultancy services and/or by the disclosure of information obtained from the audit.
9. Information obtained during or in connection with the performance of the energy audit may be provided/presented by the Provider only with the written consent of the Contracting Authority or if there is a legal obligation in this regard.

10. The Contracting unit undertakes to verify the quality of the Reports executed in accordance with the requirements imposed by the national regulatory framework of the Republic of Moldova.
