Technical Specifications

Item	MINIMUM SPECIFIATIONS	Quantity
A.	**Motorola TETRA Portable Radios and Accessories (Warranty – 2 years for terminals; 1 year – for accessories):**	
1.	MTP3500 TETRA Portable Radio: - High capacity battery (2150mAh); - Frequency band: at least 380-400 MHz; - TEA1; - Dust and water ingress protection – IP67; - User manual in Romanian and/or English.	32 pcs
2.	MTP3550 TETRA Portable Radio: - High capacity battery (2150mAh); - Frequency band: at least 380-400 MHz; - TEA1; - Dust and water ingress protection – IP67; - User manual in Romanian and/or English.	10 pcs
3.	2'' Belt clip (PMLN5616)	42 pcs
4.	Antenna Stubby 380-430 MHz 55mm (85012056001)	42 pcs
5.	2150 mAh high-capacity Li-Ion battery, IP55 (NNTN8023)	42 pcs
6.	Personal radio charger with Euro Plug (PS000042A32)	5 pcs
7.	Desktop dual-unit charger for charging radio and spare battery simultaneously (Euro plug) (PMLN6494)	10 pcs
8.	Multi-unit charger with 6 battery pockets (Euro plug) (NNTN8152)	6 pcs
9.	Battery charging insert for multi-unit battery charger (NNTN8037)	36 pcs
10.	Bluetooth accessories:	
	- single-wire surveillance kit (PMLN7052)	42 pcs
	- wireless push-to-talk (PTT) pod (NNTN8191)	42 pcs
	- mini USB charging plug with Euro plug (PMPN4006)	42 pcs
11.	Licenses, Security Options:	42 pcs (or a solution for 42 terminals)
	- Bluetooth (if not included by default in MTP3500/3550 TETRA Portable Radio)	
	- GPS (if not included by default in MTP3500/3550 TETRA Portable Radio)	
	- Man Down functionality (if not included by default in MTP3500/3550 TETRA Portable Radio)	
	- End-to-End Encryption (if not included by default in	

		~~MTP3500/3550 TETRA Portable Radio)~~	
12.	Configuration/programming kit: cable and software		3 pcs
13.	Support in configuration of terminals – up to 3 days; Training of end user: 10 persons, 1 day of training (including technical features and how to use the terminals)		
B.	**Motorola TETRA Mobile Radios and Accessories (Warranty – 2 years on terminals; 1 year – on accessories):**		
1.	MTM5400 TETRA Mobile Radio Station: - Dash mount; - Frequency band: at least 380-400 MHz; - TEA1; - Gateway Repeater Functionality; - User manual in Romanian and/or English.		4 pcs
2.	TETRA/GPS Antenna 380-400 MHz (mounts and cables included)		4 pcs
3.	Heavy Duty Microphone (RMN5111)		4 pcs
4.	External Speaker (RSN4002A)		4 pcs
~~5.~~	~~Power supply and other connection cables~~		~~4 pcs~~
6.	Configuration/programming kit: cable and software		2 pcs
7.	Licenses, Security Options:		4 pcs (or a solution for 4 terminals)
	- GPS (if not included by default in MTM5400TETRA Mobile Radio)		
	~~- End-to-End Encryption (if not included by default in MTM5400TETRA Mobile Radio)~~		
8.	Support in configuration of terminals – up to 3 days; Training of end user: 10 persons (the same group as indicate in Item A.13 above), 1 day of training (including technical features and how to use the terminals)
