Section 5. Terms of Reference

A. Project Description

The [Sustainable Development Goals](#) are a bold manifesto requiring strong mobilization efforts in terms of funding, expertise, and partnerships. Transformative and integrative in its design, it requires implementation on a dramatically different scale. As countries build new capacities and transform ways of working to enable more whole-of-society responses, the United Nations stand ready and committed to provide coherent and consistent support and guidance.

Anchored in the 2030 Agenda for Sustainable Development and committed to the principles of universality, equality and inclusiveness, the [UNDP Strategic Plan 2018 – 2021](#) provides direction to help countries achieve sustainable development by eradicating poverty in all its forms and dimensions, accelerating structural transformations for sustainable development and building resilience to crises and shocks. Building on UNDP's experience to date, it provides a framework to support countries to achieve the 2030 Agenda and the Sustainable Development Goals. The plan reinforces UNDP's commitment to working in partnership with Governments, civil society and the private sector, as a catalyst and facilitator of support from the United Nations System as mandated by the General Assembly.
