Section 5. Terms of Reference

A. Project Title

“Curbing Corruption by Building Sustainable Integrity” Project

B. Rationale

The goal of the project „Curbing Corruption by Building Sustainable Integrity in Moldova” is to contribute to achieving a sustainable integrity and anticorruption system in the Republic of Moldova through the strengthened capacities of the public and private sector entities and the civil society for the efficient application and monitoring of national integrity instruments and standards. It will contribute to the progressive implementation of the Sustainable Development Goal 16 that calls for a substantial reduction of corruption and bribery in all their forms and for developing effective, accountable and transparent institutions at all levels. The Project is framed around the National Integrity and Anticorruption Strategy (NIAS) 2017-2020 and responds to the needs of its various actors and stakeholders in addressing the challenges for the effective implementation of NIAS, including lack of mechanisms for enforcing integrity standards in private sector; and weak anticorruption demand-side explained by the limited awareness of men and women on the available anticorruption tools to be used and on the means of protection in the event of denunciation of corruption.

The NIAS structure is based on integrity pillars methodology developed by the Transparency International. This innovative approach focuses on a strengthened responsibility and accountability of the institutions representing integrity pillars. The policy document focuses on the effective enforcement of the legal and institutional frameworks, rather than legislative modifications and institutional restructuring prioritized in the previous years.

The Pillar II. Government, Public Sector and Local Public Administration has the objective of developing the integrity, accountability, transparency, and resistance to corruption risks of the public agents, Government members, and locally elected officials. One of priorities of the Pillar II is the Sector approach to corruption and reducing corruption in ten sectors vulnerable to corruption. One of these priority sectors is the Fiscal sector. The action plan for the NIAS implementation for the Pillar II provides for the adoption and implementation of a sector Anticorruption Action Plan in Fiscal Sector.

[The Sector Anticorruption Action Plan in the Fiscal Sector for 2018-2020](#) (the Action Plan) was adopted on 17 April 2018 through the Government Decision 325. The Action Plan identifies as the main problems in the sector a burdensome legal framework and insufficient transparency in the decision-making process; vulnerabilities in the services delivery process; drawbacks in ensuring institutional integrity climate; tax evasion.

The Action Plan has 4 Priorities:

1. Enhancing transparency and uniform engagement of the interested stakeholders in the decision-making process;

2. Enhancing quality and transparency in the services delivery process and implementation of efficient and operational automated informational systems;
3. Strengthening the integrity climate and reducing vulnerabilities to corruption by strengthening the institutional capacities;
4. Reducing the level of tax evasion by implementing measures of management and monitoring activities of fiscal inspectors and increasing the discipline among taxpayers.

In this context, the UNDP Project "Curbing Corruption by Building Sustainable Integrity" seeks a local company to support NAC in conducting an impact assessment of the Sectorial anticorruption action plan in the Fiscal sector.
