1. INTRODUCTION

a. Background

UN Women, grounded in the vision of equality enshrined in the Charter of the United Nations, works for the elimination of discrimination against women and girls, the empowerment of women and the achievement of equality between women and men as partners and beneficiaries of development, human rights, humanitarian action and peace and security. Placing women's rights at the center of all its efforts, UN Women leads and coordinates the United Nations system efforts to ensure that commitments on gender equality and gender mainstreaming translate into action throughout the world.

The work of UN Women in Moldova is guided by its [Country Strategic Note for 2018-2022](#), aligned with [the Republic of Moldova–United Nations Partnership Framework for Sustainable Development 2018–2022](#), [the Global Strategic Plan of UN Women for 2018-2021](#), the [National Strategy on Gender Equality for 2017-2021 \(NSGE\)](#), the [National Strategy for prevention and combating violence against women and domestic violence for 2018-2023](#) elaborated in line with the Council of Europe Convention on Preventing and Combating Violence Against Women and Domestic Violence (Istanbul Convention). [UN Women Strategy for Moldova 2018-2022](#) focuses on three main areas: 1) strengthening women's participation in politics and decision making, 2) economic empowerment of women and 3) ending violence against women and girls.

To achieve progress under these areas, UN Women works with a variety of national and international partners, as part of different national and regional initiatives. UN Women emphasize strong partnership to civil society to support stronger movement towards gender equality and women's rights, building on the existing platforms and networks, while aiming to ensure that they remain inclusive, open, united and reach out to women and girls from all corners of the country and from diverse groups.

Under the impact area, women and girls live a life free of violence; UN-Women focuses its contribution on promoting that more cities have safe and empowering public spaces for women and girls. This includes support to: incorporate safety for women and girls in urban development plans, develop gender-responsive and locally relevant programmes, and investments in the safety and economic viability of public spaces that are effective and accessible to all.

Based on the European Commission Decision ENI/2018/041-302 regarding the Annual Action Programme 2018 in favor of the Republic of Moldova for support for the implementations of the EU-Moldova Association Agreement, UN Women Moldova CO is implementing a three-year project (January 2020 – December 2022) under the name "Strengthened Gender Action in Cahul and Ungheni districts" (hereinafter EVA). The project is implemented in line with and in contribution to the Gender Action Plan II (GAP II) of European Commission "Gender Equality and Women's Empowerment: Transforming the lives of girls and women through external relations 2016-2020", adopted in September 2015.

The project started in January 2020, funded by the European Union, co-founded and implemented by UN Women Moldova Country Office and in partnership with UNICEF. The overall purposes of the EVA is to promote gender equality, women's empowerment through strengthened implementation of gender mainstreaming in local policies and combating gender-based and domestic violence affecting women and children in two focal regions: Ungheni and Cahul.

The principles of gender equality and women empowerment are central to the EVA Project, as women in Moldova continue to face gender inequalities when it comes to the decision making, labor market, the gender pay gap - as

the regulatory framework still impedes women to participate in certain occupations and allows for discrimination based on age, disability, marital status, etc.

One of the expected results under the EVA project is that gender equality is promoted and mainstreamed in local policy making and decision-making. The project supports Cahul and Ungheni localities to integrate gender equality in their policies and budgets through training elected and appointed representatives of the LPAs on gender equality and gender mainstreaming and its implications for decisions taken by the LPAs; coaching LPAs to adhere to the principles of the European Charter for Equality of Women and Men in Local Life; raising the capacities and knowledge on women's rights of local CSOs; raising awareness of local population on gender equality and empowering women to actively participate in local decision-making processes.

Another set of expected results under EVA project refers to a greater access to effective survivor - focused multidisciplinary services for the victims of domestic violence, including sexual violence; and violence prevention programmes piloted in local schools and communities. In this sense, UN Women EVA project supports strengthening the capacities of the multidisciplinary teams for an effective protection of women and children victims of domestic violence, empowering domestic violence survivors, and the usage of innovative tools to raise the capacities of local civil society to change attitudes and behaviors on violence against women and gender-based violence.

b. General Overview of services required/results

This Call for Proposal is addressed to Moldovan non-governmental organizations with experience in supporting local civil society and in promotion of gender equality and women empowerment. Within the EVA project, UN Women Moldova is interested in strengthening the capacities of local civil society organizations in the area of gender equality and in supporting them to match with the ongoing efforts at local level for gender mainstreaming in local public policies and raising awareness among the general public on GEWE and EVAW in Cahul and Ungheni districts. By enhancing the capacity of the local civil society, the Partnership Agreement will contribute to a more sustainable engagement of local stakeholders in advancing the culture of zero tolerance to violence and will create a climate in which abusive attitudes, beliefs and behaviors are seen as unacceptable. The support offered under this CFP is expected to contribute to the implementation of the national strategic plans on ensuring equality between women and men and on prevention and combating violence against women.

Under this call, the proponents are expected to work with at least eight (8) local civil society organizations (CSOs) from Cahul and Ungheni districts in the framework of UN Women EVA Project. The proposed work under this assignment should develop and test new approaches in changing and challenging gender stereotypical behaviors and norms prevalent in local communities to enhance women's human rights and women's empowerment and should be based on the lessons learned and experiences of earlier initiatives undertaken by UN Women and best practices from European Union countries in the region.

The proponents are invited to submit the proposal to be implemented in Cahul and Ungheni districts for a maximum period of 14 months. The implementation of the Partnership Agreement to be signed under this CFP is expected to be completed **before September 30, 2022**.

This section should provide an overview with relevant annexes that clearly demonstrate that the proposing organization has the capacity and commitment to implement successfully the proposed activities and produce results. Key elements to be covered in this section include:

1. Nature of the proposing organization – Is it a community-based organization, national or sub-national NGO, research or training institution, etc.?
2. Overall mission, purpose, and core programmes/services of the organization
3. Target population groups (women, indigenous peoples, youth, etc.)
4. Organizational approach (philosophy) - how does the organization deliver its projects (e.g., gender-sensitive, rights-based, etc.)
5. Length of existence and relevant experience
6. Overview of organizational capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management)

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women TOR. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the TOR.
2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proposing organization and UNWOMEN.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be

done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an Annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include in the Implementation Plan all required milestone reports and monitoring reviews.

Implementation Plan

Project No:		Project Name:											
Name of Proponent Organization:

1.3													
1.4													

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- How the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan
- How any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received
- How the participation of community members in the monitoring and evaluation processes will be achieved

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity). Describe how such risks are to be mitigated.

Include in this section also the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, government environmental policy remaining stable) which are anticipated in planning, and on which the feasibility of the activities depend.

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that would cost less.

- The budget should include all costs associated with managing and administering the activity or results, particularly include the cost of monitoring and evaluation.
- The budget could include “Support Costs”: those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- “Support Cost Rate” means the flat rate at which the Partner will be reimbursed by UN Women for its Support Costs, as set forth in the Partner Project Document and not exceeding a rate of 7% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible Direct Costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line item categories, list the item under other costs, and state what the money is to be used for.
- Results based budget should be prepared **using zero VAT rate**.
- The figures contained in the Budget Sheet should agree with those on the proposal header and text.
